

shieldF - High Performance And Durable Auto Armor Film

In India, scratches on vehicles are very common due to heavy & undisciplined traffic, bad roads, narrow parking spaces, vandalism, poor washing method and more. Furthermore, harsh and polluted environment causes permanent damages on vehicle body. Even new vehicles look old because of damages. Frequent repainting becomes costly and troublesome. Similarly, frequent exterior treatments damage vehicles.

Scratches

Dulling

Fading

Yellowing

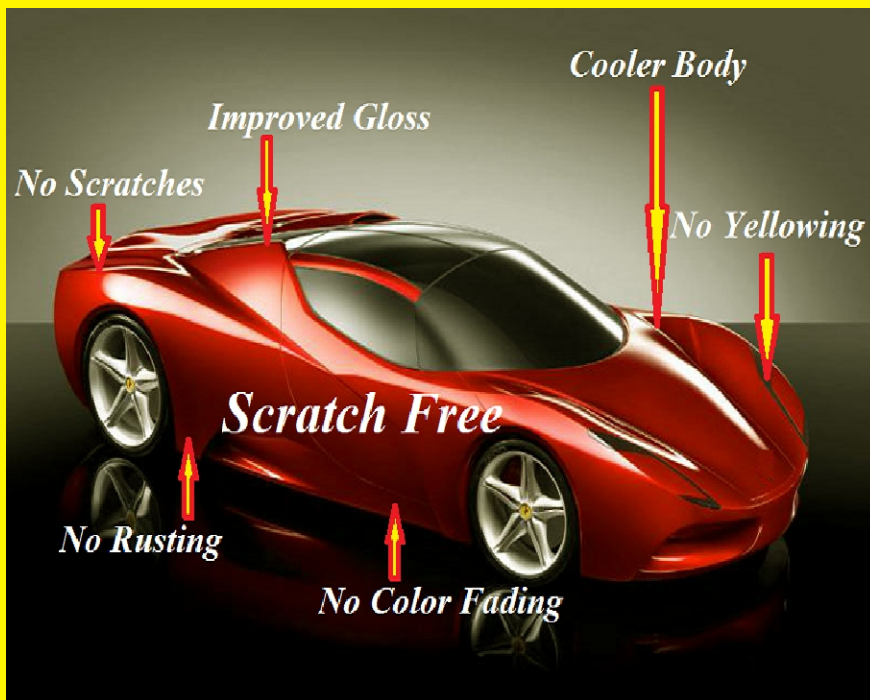

Rusting

Commonly used periodic treatments like Teflon coating, waxing, polishing are highly ineffective and temporary.

Install shieldF auto armor film on your vehicle body to shield it from mechanical and environmental damages. shieldF is three layers strong, transparent, high gloss, super thin and invisible film with UV protective coating. Once installed to surface it can be cleaned and washed as usual. It keeps vehicle shining like new, without the effort and costs associated with repainting and rubbing polishing, teflon coating, waxing, etc.

Benefits & Savings

- 👍 **Realize High Resale Value**
- 👍 **No Frequent Repainting**
- 👍 **No Regular Teflon Coatings**
- 👍 **No Yearly Insurance Bonus Loss**
- 👍 **No Exterior Body Treatment**
- 👍 **Save Fuel Cost**

Features

- ✓ Protection against scratches from rubbing against walls, road rocks and pebbles, road debris, nail scratches, key scratches, etc.
- ✓ Protection from rusting, acid rain and oxidation
- ✓ Permanent increase in gloss
- ✓ Crystal-like transparency, does not affect the paint's quality
- ✓ Prevents body color fading/changing/yellowing
- ✓ Self-Healing and Maintenance Free
- ✓ Made with automotive grade premium high quality material.
- ✓ Excellent ductility, superior tensile strength
- ✓ Extremely flexible and can be applied to moderate curves or any smooth flat surface
- ✓ No cracking or yellowing – Can be applied on light color vehicles
- ✓ Top quality adhesive with built-in air channels for easy, bubble-free installation
- ✓ Does not leave adhesive residue behind
- ✓ Durable material resistant to water, dirt, grease, salt, mild acid and oil
- ✓ Heat resistance from -50°C to $+180^{\circ}\text{C}$
